The Mitsubishi model XD460U is a DLP projector with XGA 1024 x 768 resolution and a contrast of 2500:1. The projector can be positioned very freely thanks to the horizontal and vertical keystone correction. An image width of up to 444 cm is possible. However, the image should be smaller in room light. We recommend max. 296 cm. The projector was launched in 2005 and is no longer sold by the manufacturer.
