

Nec PX700W2

NEC PX700W2

With the PX700W2, manufacturer Nec offers a stationary DLP projector with WXGA 1280 x 800 resolution and a contrast of 2100:1. The integrated media player can play files directly. Includes a lens shift and keystone correction function, which provides freedom during installation. An image width of up to 850 cm is possible as the projector has 7000 Ansi lumens. The projector can create rooms with residual light with a smaller image width, we recommend a maximum of 567 cm. If the image is still too small, the integrated edge blending software can help to project a larger image with additional projectors. It is also Full HD 1080P compatible and can even project Blu-rays onto the ceiling thanks to 360° projection. The model built in 2014 is no longer offered by Nec.
