

Nec UM351Wi (Multi-Touch)

NEC UM351Wi (MULTI-TOUCH)

The Nec UM351Wi (Multi-Touch) LCD Beamer has 3500 Ansi-Lumens a contrast of 4000:1 and a WXGA 1280 x 800 Resolution. The manufacturer indicates a lamp life of 3800 hours, which would be converted over 5.2 years at 2 hours a day. Since the projector has a horizontal and vertical keystone correction, the projector can be set up with plenty of freedom in the room. The beamer is equipped with a microphone jack plug and 20W loudspeakers, so no additional loudspeakers are required for presentations or training. 601 cm of image width will be able to illuminate the projector. The projector with a smaller width of the image, max. We would recommend 401 cm here. The projector offers an interactive whiteboard function for interactive training and presentations. With the HDMI MHL port, the smartphone image can be transferred to the projector in Full HD at 60 Hz by mirroring (screen mirroring) and at the same time the smartphone is charged. The model is also Full HD 1080P compatible. It was launched in 2015 and is no longer offered by the manufacturer Nec, but still has a high popularity in our projector database.
