

NexiGo Aurora Pro MKII

The short-throw Aurora Pro MKII 3D Laser DLP has 2400 ANSI lumens, a contrast ratio of 30000:1 and a UHD (4K2K) 3840 x 2160 resolution. Thanks to the laser technology, the projector has a light lifespan of up to 20,000 hours, which is the equivalent of over 13.7 years at 4 hours a day. It includes an integrated media player that can be used to play files directly. Since it is a short-throw projector, the projector can be placed very close to the wall. For a 2 m wide image, the projector only needs to be 42 cm away from the screen. The model recognises Airplay, Miracast Screen Mirroring signals, so it is possible to play videos with high resolution and surround sound directly from a smartphone, tablet or PC (Android, Windows and iOS) via WLAN. In addition, the Bluetooth option is a useful addition to the projector, especially for wireless audio transmission. Furthermore, the projector can play 1080P and 4K as well as 3D without any problems, and thus all currently offered Blu-ray formats can be recognised by the projector. This model is no longer offered by NexiGo, but it is still very popular in our projector database.

 1 x 0,47" DMD DLP Chip
 HDTV 16/9 Ti Digital Light Processing Chip

Projector	2400	Screen	1067 Lux (bei 200 cm Screen)
