

NexiGo Nova Mini

The NexiGo Nova Mini DLP projector has 1200 ANSI lumens and an HDTV 1920 x 1080 resolution. The projector can illuminate a screen up to 352 cm wide well thanks to the 1200 ANSI lumens. However, in room light, the screen width should ideally be under 235 cm. Thanks to the integrated Google Assistant, the projector can be conveniently operated by voice command, from searching for films to controlling your smart home devices. Thanks to Google TV, the projector turns into a smart entertainment centre with countless features. The projector has Chromecast and screen mirroring support, which allows you to play videos in high resolution and surround sound from smartphones, tablets and PCs with Android, Windows or iOS directly via Wi-Fi. Furthermore, it is Full HD 1080P compatible.
