

NexiGo PJ40 Pro

The NexiGo PJ40 Pro LED LCD projector has 800 ANSI lumens and an HDTV 1920 x 1080 resolution. The service life is 30,000 hours thanks to the LEDs, which is over 20.5 years at four hours of use per day. It includes an integrated media player that can be used to play files directly. A built-in horizontal and vertical keystone correction gives you freedom when setting up the projector. The projector will be able to illuminate a width of 287 cm well. If there is room light, however, the image width should not exceed 191 cm. Google TV turns the projector into a smart entertainment centre with countless functions. Since the projector recognises Airplay, Miracast Screen Mirroring signals, it is possible to play videos with high resolution and surround sound directly from a smartphone, tablet, PC (Android, Windows and iOS) via WLAN. Another extra to be mentioned is that the projector can be connected to external wireless speakers via the Bluetooth function. Furthermore, it is Full HD 1080P compatible.

Brief Introduction
Beta 2.5
