

Nomvdic P2000UST

NOMVDIC P2000UST

The P2000UST 3D laser DLP projector from Nomvdic has 2500 Ansi lumens and a UHD (4K2K) 3840 x 2160 resolution. Thanks to the laser technology, the projector has a light life of up to 20000 hours, which is over 13.7 years if enjoyed for four hours a day. With a projection ratio of just 0.22:1, this projector never gets in the way. For a 2m wide image, the projector only needs to be 44 cm away from the screen. Whats more, thanks to the Bluetooth function, the projector can be flexibly paired with other speakers. Video signals 1080P and 4K as well as 3D are also no problem for the projector, meaning that all currently available Blu-ray formats can be recognized by the projector.
