

Optoma EH501

OPTOMA EH501

Brief introduction to the Optoma EH501. The standard portable DLP projector has HDTV 1920 x 1080 resolution and a contrast ratio of 15000:1. The lens shift function allows the projector to be positioned very freely. The projector is equipped with a microphone jack and 15W speakers, so no additional speakers are required for presentations or training sessions. An image width of up to 718 cm is possible; if the image width is smaller (we recommend max. 479 cm), even rooms with residual light are no problem. Furthermore, the projector can play 1080P and 3D without any problems. At just 27 decibels, the device is one of the quieter projectors. This model is no longer offered by Optoma, but is still very popular in our projector database.
