

# Optoma W501

OPTOMA W501

With the W501, manufacturer Optoma offers a standard portable DLP projector with WXGA 1280 x 800 resolution and a contrast of 15000:1. The built-in lens shift and keystone correction function provides freedom when setting up. The model offers a microphone jack plug and 15W speakers, so no additional audio equipment is required for presentations or training courses. Thanks to the brightness of 5000 Ansi lumens, a picture width of 718 cm is possible. The projector can also handle slightly brighter rooms with a narrower picture width (we recommend max. 479 cm). It is also Full HD 1080P and 3D compatible. At just 27 decibels, the device is one of the quieter projectors. It was launched on the market in 2014 and is no longer offered by the manufacturer Optoma.
