

Packard Bell iView

The Packard Bell model iView is an LCD projector with SVGA 800 x 600 resolution and a contrast of 300:1. The built-in lens shift and keystone correction function provides freedom when setting up. Thanks to the brightness of 1000 Ansi lumens, a picture width of 275 cm is possible. In room light, the picture should be max. 183 cm wide. The projector was launched in 2005 and is no longer sold by the manufacturer. It should also be noted that, unfortunately, there are no longer any replacement lamps for the projector, neither originals nor replicas.
