

Panasonic PT-EX800Z /L

PANASONIC PT-EX800Z /L

The PT-EX800Z /L LCD has 7500 Ansi-Lumen, a contrast of 5000:1 and an XGA 1024 x 768 resolution. The projector also offers a lens shift function for flexible projection adjustment without loss of quality. Thanks to the brightness of 7500 Ansi lumens, an image width of 754 cm is possible. The projector can also handle slightly brighter rooms with a narrower image width (we recommend max. 503 cm). Furthermore, it is Full HD 1080P compatible and can therefore project Blu-rays even onto the ceiling thanks to 360° projection. The model built in 2013 is no longer offered by Panasonic, but is still very popular in our projector database.
