

Panasonic PT-FRQ50 /B/W/U/E

PANASONIC PT-FRQ50 /B/W/U/E

With the PT-FRQ50 /B/W/U/E, manufacturer Panasonic offers a DLP laser projector with UHD (4K2K) 3840 x 2160 resolution and a contrast of 20000:1. Due to the laser, the projector is specified with 20000 hours of light life, which converts to over 13.7 years at 4 hours per day. Including a lens shift function, which provides freedom during installation. A picture width of up to 733 cm is possible, if the picture width is smaller (we recommend max. 489 cm), rooms with residual light are also no problem. Video signals 1080P and 4K are also no problem for the projector, which can even project Blu-rays onto the ceiling thanks to 360° projection.

1 x 0,65" DLP Chip
