More Details

The Panasonic model PT L292E/U is an LCD projector with resolution and a contrast of 150:1. 300 Ansi lumens ensure that a picture width of 151 cm is also possible. However, if room light is available, the picture should be a maximum of 101 cm wide. The model is no longer offered by Panasonic. It should also be noted that, unfortunately, there are no more replacement lamps for the projector, neither originals nor replicas.
