The Planar PD7060 DLP projector has 1000 Ansi lumens, a contrast of 3500:1 and an HDTV 1280 x 720 resolution. The lamp of the projector is specified with 4000 hours lamp life, which is over 5.5 years with a daily viewing time of 2 hours. The horizontal and vertical keystone correction provides leeway when setting up. A picture width of up to 321 cm is possible. However, the picture should be smaller in room light. We recommend max. 214 cm. Even 1080P video signals are no problem for the projector. It was launched in 2006 and is no longer offered by the manufacturer Planar.
