

Plus V 807

PLUS V 807

A brief introduction to the Plus V 807. The DLP projector has an SVGA 800 x 600 resolution and a contrast of 300:1 according to Ansi (800:1). 800 Ansi lumens ensure that a picture width of 246 cm is also possible. However, if room light is available, the picture should be a maximum of 164 cm wide. It is no longer offered by the manufacturer Plus. It should also be noted that there are unfortunately no longer any replacement lamps available for the projector, neither originals nor replicas.
