

Prixton Lumière White

P R I X T O N L U M I È R E W H I T E

A brief introduction to the Lumi?re White: The Prixton LED LCD projector offers 100 ANSI lumens, a contrast ratio of 500:1, and an HDTV resolution of 1280 x 720. It is an LED projector with a lamp life of 30,000 hours, which would equate to over 20.5 years based on 4 hours of daily use. It includes a built-in media player that allows you to play files directly. The projector can effectively illuminate a screen width of 170 cm. However, if there is ambient light in the room, the screen width should ideally not exceed 113 cm. The model supports AirPlay and Miracast screen mirroring signals, making it possible to play high-resolution videos with surround sound directly via Wi-Fi from a smartphone, tablet, or PC (Android, Windows, and iOS). Furthermore, the projector can play 1080p content without any issues.

Brief Introduction
