

projectiondesign cineo3+ 1080

A brief introduction to the projectiondesign cineo3+ 1080. The stationary DLP projector has an HDTV 1920 x 1080 resolution and a contrast of 7500:1. The built-in lens shift and keystone correction function provides freedom when setting up. A picture width of up to 658 cm is possible, if the picture width is smaller (we recommend max. 439 cm), rooms with residual light are also no problem. Playing 1080P is also no problem for the projector. The operating noise of just 30 decibels makes the projection quiet. The model was built by projectiondesign in 2006 and is no longer current, but is still one of the very popular projectors.
