

projectiondesign avielo Prisma

The projectiondesign model avielo Prisma is a DLP projector with HDTV 1280 x 720 resolution and a contrast of 4000:1. Including a lens shift function, which provides freedom during installation. A picture width of up to 321 cm is possible. However, the image should be smaller in ambient light. We recommend max. 214 cm. Even 1080P video signals are no problem for the projector. The operating noise of just 29 decibels makes the projection quiet. The model built in 2009 is no longer offered by projectiondesign.
