

Ricoh PJ WU6480

RICOH PJ WU6480

Brief Introduction

Beta 2.5

A brief introduction to the Ricoh PJ WU6480. The stationary DLP projector has a WUXGA 1920 x 1200 resolution and a contrast of 1000:1. 7500 Ansi lumens ensure that an image width of 880 cm is also possible. The projector manages rooms with residual light with a smaller image width, we recommend a maximum of 587 cm. If the image is still too small, the integrated edge blending software can help to project a larger image with additional projectors. A smartphone with MHL connection can be connected directly to the MHL/HDMI port and transmit a 1080p / 60 Hz image mirroring (screen mirroring) while the smartphone is being charged at the same time. It is also Full HD 1080P compatible and even has the option of projecting HD 1080P Blu-rays onto the ceiling using 360° projection. It was launched in 2018 and is no longer offered by the manufacturer Ricoh.
