LUMINOUS FOR AN OPTIMUM QUALITY OF PICTURES

Luminosity: 2000 ANSI Lumens

Do not plunge your audience in the darkness! The MLP 2000-X is bright with 2000 lumens. Your presentations are clear, even in a lit room. This way your presentations are professional where ever you are, in your office or in an important meeting.

Do not remain in the blur anymore! Thank to its high **XGA resolution** which has **more pixels**, your images are clearer, you can see every detail. The MLP 1100-X relays brightly the whole colour shade thanks to its very wide range of colours.

SIMPLE FOR AN INTUITIVE, DIRECT AND FLEXIBLE USE

Just plug and present, the MLP 2000-X is in charge of the rest!

No more compatibility problems!

The MLP 2000-X can be adapted to many pictures resolution: SXGA/XGA/SVGA/VGA. Furthermore the many connections offered by the MLP 2000-X will enable you to connect to every kind of equipment such as PC/MAC/PDA/DVD PLAYER. In fact it has as standard VGA connections, composites, Svideo and accessories. The MLP 2000-X can be moved from one room to another, due to its weight (3.7kg). Powerful, it can also be set up in a fixed place, thanks to its **REAR** projection technology allowing it to be put behind the screen, customise and live up your shop windows or even on the ceiling with the mounting kit.

A PROFESSIONAL PROJECTOR

User-friendly and interactive!

The MLP 2000-X remote control with its integrated mouse gives you total control of your computer at any distance. This way you can go to the following slide or open another file without moving, or even, attract the attention of your audience thanks to the laser pointer.

The MLP 2000-X is also very quiet (36 dB), which facilitates the concentration of your audience.

CONTROL!

Its integrated **KEYSTONE**, horizontal and vertical, helps to adjust the picture size.

The picture in picture function enables you to visualize on screen 2 different pictures. This way, a slide and the speaker's face can be projected in at same time, for instance.

Furthermore the **Freeze Mode**, allows you to freeze a presentation in progress while opening another document without your audience noticing it.

And finally, its different zooms (manual and digital) allow you to **create the perfect picture thanks to its advance adjustments** (size and picture clearness).

CALL CENTRE

Take advantage of the after sales service with access to the Sagem Call Centre which solve quickly any operating problems.

INTEGRATION OF THE VIDEO PROJECTOR IN THE PROFESSIONAL ENVIRONMENT

The carrying bag and the optical protection mask give you the best conditions for carrying.

The set up and the use of your video projector in the professional environment is facilitated by a complete range of accessories (supplying cable, video, composite, handbook, infrared remote control with mouse piloting).

Ready to project at purchase, your equipment is delivered with a lamp (lamp life 2000 hours).
