

Sharp XG E690E/U/B

A brief introduction to the Sharp XG E690E/U/B. The LCD projector has an SVGA 800 x 600 resolution and a contrast of 100:1. An image width of up to 140 cm is possible. However, the image should be smaller in room light. We recommend max. 93 cm. It is no longer offered by the manufacturer Sharp. It should also be noted that there are unfortunately no longer any replacement lamps available for the projector, neither originals nor replicas.

6,4" LCD TFT Panel
SVGA 4/3 Liquid Crystal Display

Projector

260
100:1 full on/off
2,6000 min. Lumen

Screen
