Operating Noise

The XR 1X DLP projector from Sharp has 1200 Ansi lumens, a contrast of 2000:1 and an XGA 1024 x 768 resolution. Thanks to the brightness of 1200 Ansi lumens, a picture width of 302 cm is possible. In room light, the picture should be max. 201 cm wide. The model was built by Sharp in 2004 and is no longer current, but is still a popular projector in our database. It should also be noted that, unfortunately, there are no more replacement lamps for the projector, neither originals nor replicas.
