The Sony MP-CD1 model is a DLP projector with WVGA 854 x 480 resolution and a contrast of 400:1. The lamp life is up to 50,000 hours, which is equivalent to over 68.5 years at 2 hours per day. An image width of up to 104 cm is possible as the projector has 105 Ansi lumens. However, if room light is available, the picture should be max. 69 cm wide. The built-in 5000 mAh approx. 2 h battery means that no power supply is required, allowing the projector to be set up quickly and flexibly. The HDMI MHL (Mobile High-Definition Link) port allows 1080p / 60 Hz image mirroring (screen mirroring) to be transmitted from the smartphone while it is being charged at the same time via the connection. Even 1080P video signals are no problem for the projector. The model built in 2018 is no longer offered by Sony.
