SOUNDCORE NEBULA CAPSULE 3

Brief introduction to the Soundcore Nebula Capsule 3 Laser. The portable DLP laser projector has an HDTV 1920 x 1080 resolution and a contrast ratio of 500:1. Thanks to laser technology, the projector has a light life of up to 30,000 hours, which is over 20.5 years if used for four hours a day. A built-in horizontal and vertical keystone correction gives you freedom when setting up the projector. An image width of up to 176 cm is possible. However, the image should be smaller in room lighting. We recommend a maximum of 117 cm. The built-in 15,000 mAh battery eliminates the need for a power supply, allowing the projector to be set up quickly and flexibly. Since the projector recognizes Chromecast and screen mirroring signals, it is possible to play videos with high resolution and surround sound directly from a smartphone, tablet, or PC (Android, Windows, and iOS) via Wi-Fi.
