

Soundcore Nebula P1

SOUND CORE NEBULA P1

With the Nebula P1, manufacturer Soundcore offers an LCD LED projector with HDTV 1920 x 1080 resolution and a contrast ratio of 1500:1. The LEDs have a service life of 30,000 hours, which equates to over 20.5 years of enjoyment at four hours per day. Files can be played directly using the integrated media player. Horizontal and vertical keystone correction provides flexibility when setting up. An image width of up to 174 cm is possible. However, the image should be smaller in room lighting. We recommend a maximum of 116 cm. Thanks to Google TV, the projector can be conveniently controlled by voice command. In addition, the Bluetooth capability is a useful addition to the projector, especially for wireless audio transmission. Even 1080P video signals are no problem for the projector. With an operating noise of only 29 decibels, the model is very quiet compared to others.
