

Specktron XL 735

SPECKTRON XL 735

Brief Introduction

Beta 2.5

With the XL 735, manufacturer Specktron offers a DLP projector with XGA 1024 x 768 resolution and a contrast of 15000:1. The manufacturer Specktron specifies a lamp life of 10000 hours, which is over 13.7 years with a daily viewing time of 2 hours. A built-in horizontal and vertical keystone correction provides freedom when positioning the projector. Thanks to the brightness of 3500 Ansi lumens, an image width of 515 cm is possible. The projector can also handle slightly brighter rooms with a narrower picture width (we recommend max. 343 cm). The model is also Full HD 1080P compatible. The projector was launched in 2019 and is no longer sold by the manufacturer.
