

Surewheel E60

SUREWHEEL E60

Brief Introduction

Beta 2.5

A brief introduction to the Surewheel E60. The micro-portable DLP LED projector has an HDTV 1920 x 1080 resolution and 350 Ansi lumens. Thanks to the LEDs, the projector has a light life of up to 20000 hours, which is equivalent to over 13.7 years at 4 hours per day. Includes an integrated media player that can be used to play files directly. The projector can illuminate images up to 190 cm wide thanks to its 350 Ansi lumens. In room lighting, however, the picture width should ideally be less than 127 cm. Another extra is that the Bluetooth function allows the projector to be connected to external wireless speakers. The projector can also play 1080P without any problems.
