

Technaxx TX-126

EAN/UPC:4260358123752

TECHNAXX TX-126

Brief Introduction

Beta 2.5

The Technaxx model TX-126 is a DLP LED projector with WVGA 854 x 480 resolution and a contrast of 1000:1. Manufacturer Technaxx specifies a service life of 30000 hours, which is over 20.5 years with a daily viewing time of 4 hours. The integrated media player can play files directly. 102 cm picture width, the projector will be able to illuminate well. However, if room light is available, the picture width should ideally not exceed 68 cm. Thanks to the built-in 2500mAh battery, no power supply is required, allowing the projector to be set up quickly and flexibly. As the projector optionally recognizes Miracast screen mirroring signals, it is possible to play videos with high resolution and surround sound directly via WLAN from a smartphone, tablet or PC (Android, Windows and iOS). Playing 1080P is also no problem for the projector. The model was built by Technaxx in 2020 and is no longer current, but is still a popular projector in our database.
