A brief introduction to the V68: The TMY LED LCD projector offers 320 Ansi lumens, a contrast of 6000:1 and HDTV 1920 x 1080 resolution. Due to the LEDs, the projector is specified with 50000 hours of light life, which converts to over 34.2 years at 4 hours per day. A built-in horizontal and vertical keystone correction provides freedom when positioning the projector. Thanks to the brightness of 320 Ansi lumens, a picture width of 182 cm is possible. In room light, the picture should be max. 121 cm wide. The model recognizes Airplay, Miracast Screen Mirroring signals, so it is possible to play videos with high resolution and surround sound directly via WLAN from a smartphone, tablet or PC (Android, Windows and iOS). Another extra is that the projector can be connected to external wireless speakers using the Bluetooth function. It is also Full HD 1080P and 4K (compressed) compatible.
