

Bright Things Come out of **Small** Packages.

The New Toshiba TDP-P75 projector offers the ultimate blend of performance and portability. Bright enough at 2300 ANSI Lumens to make your presentations glow and light enough at only 4.2lbs to travel with you anywhere your business trips may take you. Even though the TDP-P75 is light on weight it is heavy on features. This light weight models still offers full remote mouse keystone correction and a host of other great features you will wonder how you have lived without.
