

Toumei S2

TOUMEI S2

A brief introduction to the S2: The Toumei 3D Laser DLP projector offers 1,000 ANSI lumens, a contrast ratio of 1,500:1 and an HDTV resolution of 1,920 x 1,080. It is a laser projector with a lamp life of 30,000 hours, which, based on daily viewing time of 4 hours a day, would amount to over 20.5 years. Thanks to the ambient light sensor, the projector can automatically optimise the projected image. As it is a short-throw projector, it can be placed very close to the wall. For a 2-metre-wide image, the projector needs to be positioned just 36 cm away from the screen. Google TV transforms the projector into a smart entertainment centre with countless features. As the projector recognises AirPlay and Miracast screen mirroring signals, it is possible to stream high-resolution videos with surround sound directly from a smartphone, tablet or PC (Android, Windows and iOS) via Wi-Fi. In addition, the Bluetooth capability is a useful addition to the projector, particularly for wireless audio transmission. Even 1080p video signals are no problem for the projector. Compared to other models, the projector is very quiet, with an operating noise level of 27 decibels.
