

Utimea Poseidon E100

ULTIMEA POSEIDON E100

With the Poseidon E100, manufacturer Utimea offers a DLP LED projector with HDTV 1920 x 1080 resolution and a contrast ratio of 500:1. Thanks to its LEDs, the projector has a light life of up to 30,000 hours, which would be over 20.5 years if viewed for 4 hours a day. As the projector has horizontal and vertical keystone correction, it can be set up with plenty of space in the room. 1800 ANSI lumens ensure that an image width of 431 cm is also possible. However, if there is ambient light in the room, the image should be no more than 287 cm wide. The integrated Google Assistant turns the projector into a hub in the smart home, combining voice control and a wide range of functions. Google TV turns the projector into a smart entertainment center with countless functions. The projector has Chromecast, Airplay, and Miracast screen mirroring support, which allows high-resolution videos and surround sound to be played directly from smartphones, tablets, and PCs running Android, Windows, or iOS via Wi-Fi. In addition, the Bluetooth capability is a useful addition to the projector, especially for wireless audio transmission. Furthermore, it is Full HD 1080P and 4K (compressed) as well as 3D compatible, meaning that all currently available Blu-ray formats can be recognized by the projector. The operating noise of only 25 decibels makes the projection quiet.

1 x DLP Chip
HDTV 16/9 Ti Digital Light Processing Chip
