

Vamvo Ksbaby

VAMVO KSBABY

A brief introduction to the Ksbaby: The Vamvo LED LCD projector offers 200 Ansi-Lumen, a contrast of 1800:1 and a WVGA 800 x 480 resolution. It is an LED projector with 50000 hours of light life, which translates to over 34.2 years at 4 hours per day. The projector is equipped with an integrated media player, so direct playback of files will not be a problem. The projector will be able to illuminate a 144 cm picture width well. However, if room lighting is available, the picture width should ideally not exceed 96 cm. The model optionally recognizes Airplay, Miracast Screen Mirroring signals, so it is possible to play videos with high resolution and surround sound directly via WLAN from a smartphone, tablet or PC (Android, Windows and iOS). Even 1080P video signals are no problem for the projector.
