

# VISULAPEX V2

VISULAPEX V2

The VISULAPEX V2 model is an LCD LED projector with HDTV 1280 x 720 resolution and a contrast of 3000:1. The LEDs give the projector a light lifespan of up to 30,000 hours, which would be over 20.5 years with a daily viewing time of 4 hours. Since the projector has horizontal and vertical keystone correction, it can be placed anywhere in the room. The projector will be able to illuminate a picture width of 144 cm well. If room light is available, however, the picture width should not exceed 96 cm. The projector supports Airplay and Miracast Screen Mirroring, which allows you to play videos in high resolution and surround sound from smartphones, tablets and PCs running Android, Windows or iOS directly via Wi-Fi. In addition, the projector can be flexibly connected to other speakers thanks to the Bluetooth function. The model is also Full HD 1080P compatible.
