Qumi Q4

Personal/Pocket Projector
HD LED Projector for Business and Personal Mobility

The exceptionally versatile Qumi Q4 is the best projector for business and personal mobility. With an amazingly light and thin design, the Qumi Q4 presents a brilliant 500 ANSI lumens and an unbelievable 30,000:1 contrast for vibrant, colorful and sharp imagery. Boosting a cutting-edge LED light source, the Q4's engine produces up to 30,000 hours of lamp life for an environmentally friendly and mercury free design. Rich and easy I/O connectivity ensure an assortment of multimedia devices can easily be connected to the projector. For the best in mobility, the Vivitek Qumi Q4 is the right choice.

□ Overview

- 500 ANSI lumens and a 30,000:1 contrast for vibrant, colorful and incredible imagery
- TI's DLP® and BrilliantColor™ technologies for sharp and detailed projection quality
- Widescreen image projection up to 90" in diameter
- MHL device compatibility for streaming of video and audio content from a compatible mobile device
- Assortment of connectivity options for easy connection to almost any kind of multimedia device including smartphones, tablets, notebooks, cameras and more
- 3D compatibility with DLP® Link™ support for dazzling and realistic life-like images
- Long life LED light source with up to 30,000 plus hours of operation
- Quick search source filtering function to quickly locate input signal source
- Intuitive and easy-to-use user interface makes projector adjustments a snap
- Embedded Closed Caption Decoding (CCD) ensures a video or TV signal's audio is displayed as subtitles (captions) on the projected screen
- 6 preset display modes and 3 user defined modes allow the projected image to be tweaked for the most suitable display requirements
- Slim size at only 32mm in depth to easily fit into a purse, briefcase or backpack
- Easy portability with a weight of only 460g (1.01lbs)

Functionality

Leading Display Technology

- ❑ The new Qumi Q4 is powered by leading display technology from Texas Instruments. The Q4 maximizes these technologies to deliver an innovative and feature-rich projector.

DLP Chip Technology

Digital Light Processing (DLP) chip technology powers the projecting video image using a light source reflecting off of an array of tens of thousands of microscopic mirrors for projecting images onto a large screen for presentations.

BrilliantColor Technology

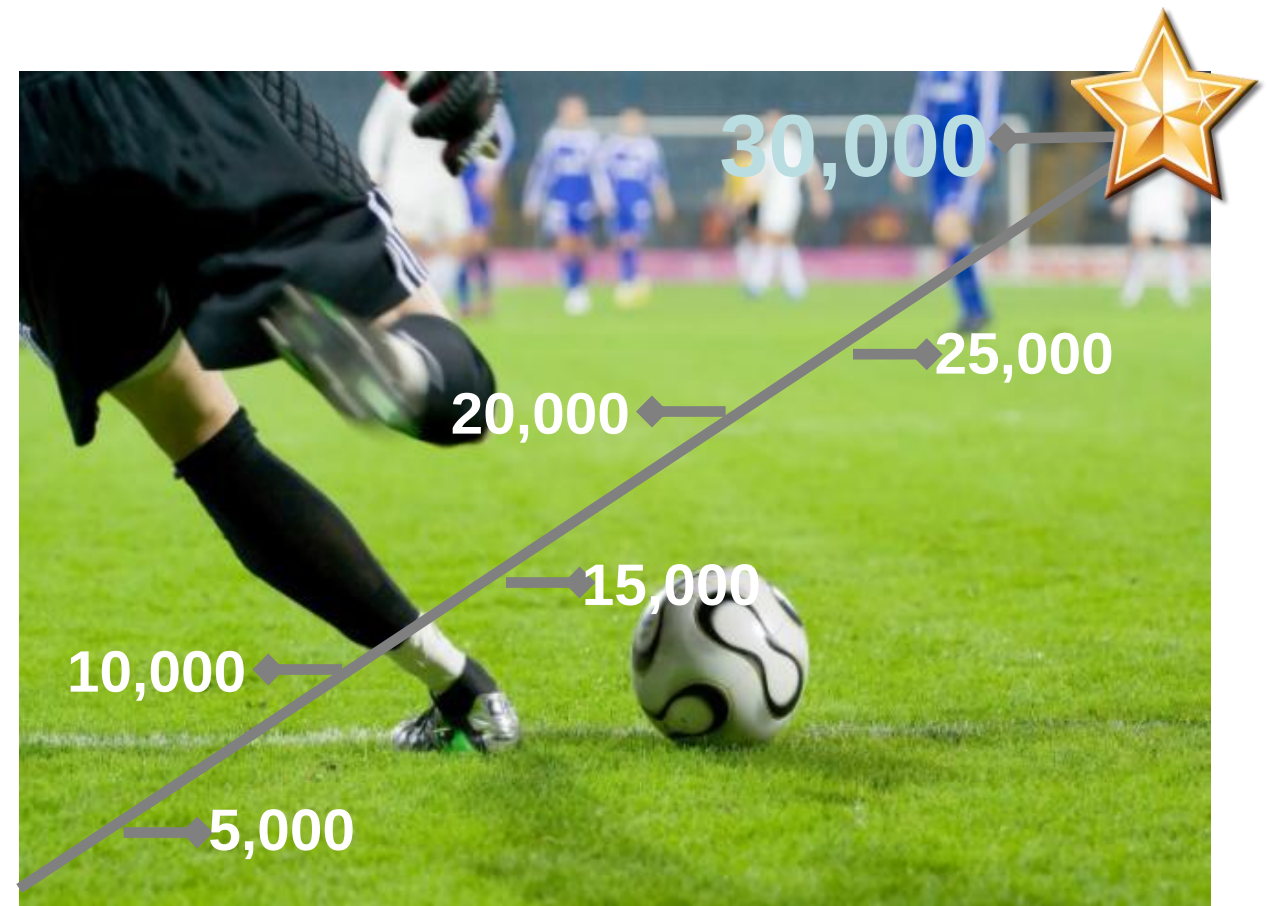

TI's BrilliantColor technology ensures a vibrant and brilliant image is projected onto the screen. BrilliantColor technology uses up to six colors, instead of just the three primary colors, red, green and blue, to improve color accuracy and brightens secondary colors.

vivitek® Vibrant, Colorful and Incredible Imagery

- ❑ The Q4's 500 ANSI lumens and 30,000:1 contrast ratio ensure a projected image that is vibrant, colorful and incredible.

Q4 delivers vibrant and colorful bright images with up to 500 ANSI lumens of brightness.

Incredible and crisp image quality with a high 30,000:1 contrast ratio

vivitek® High Definition

- ❑ Qumi's high definition technology (720p) delivers sharp and crisp HD digital content. Videos and movies jump off the screen.

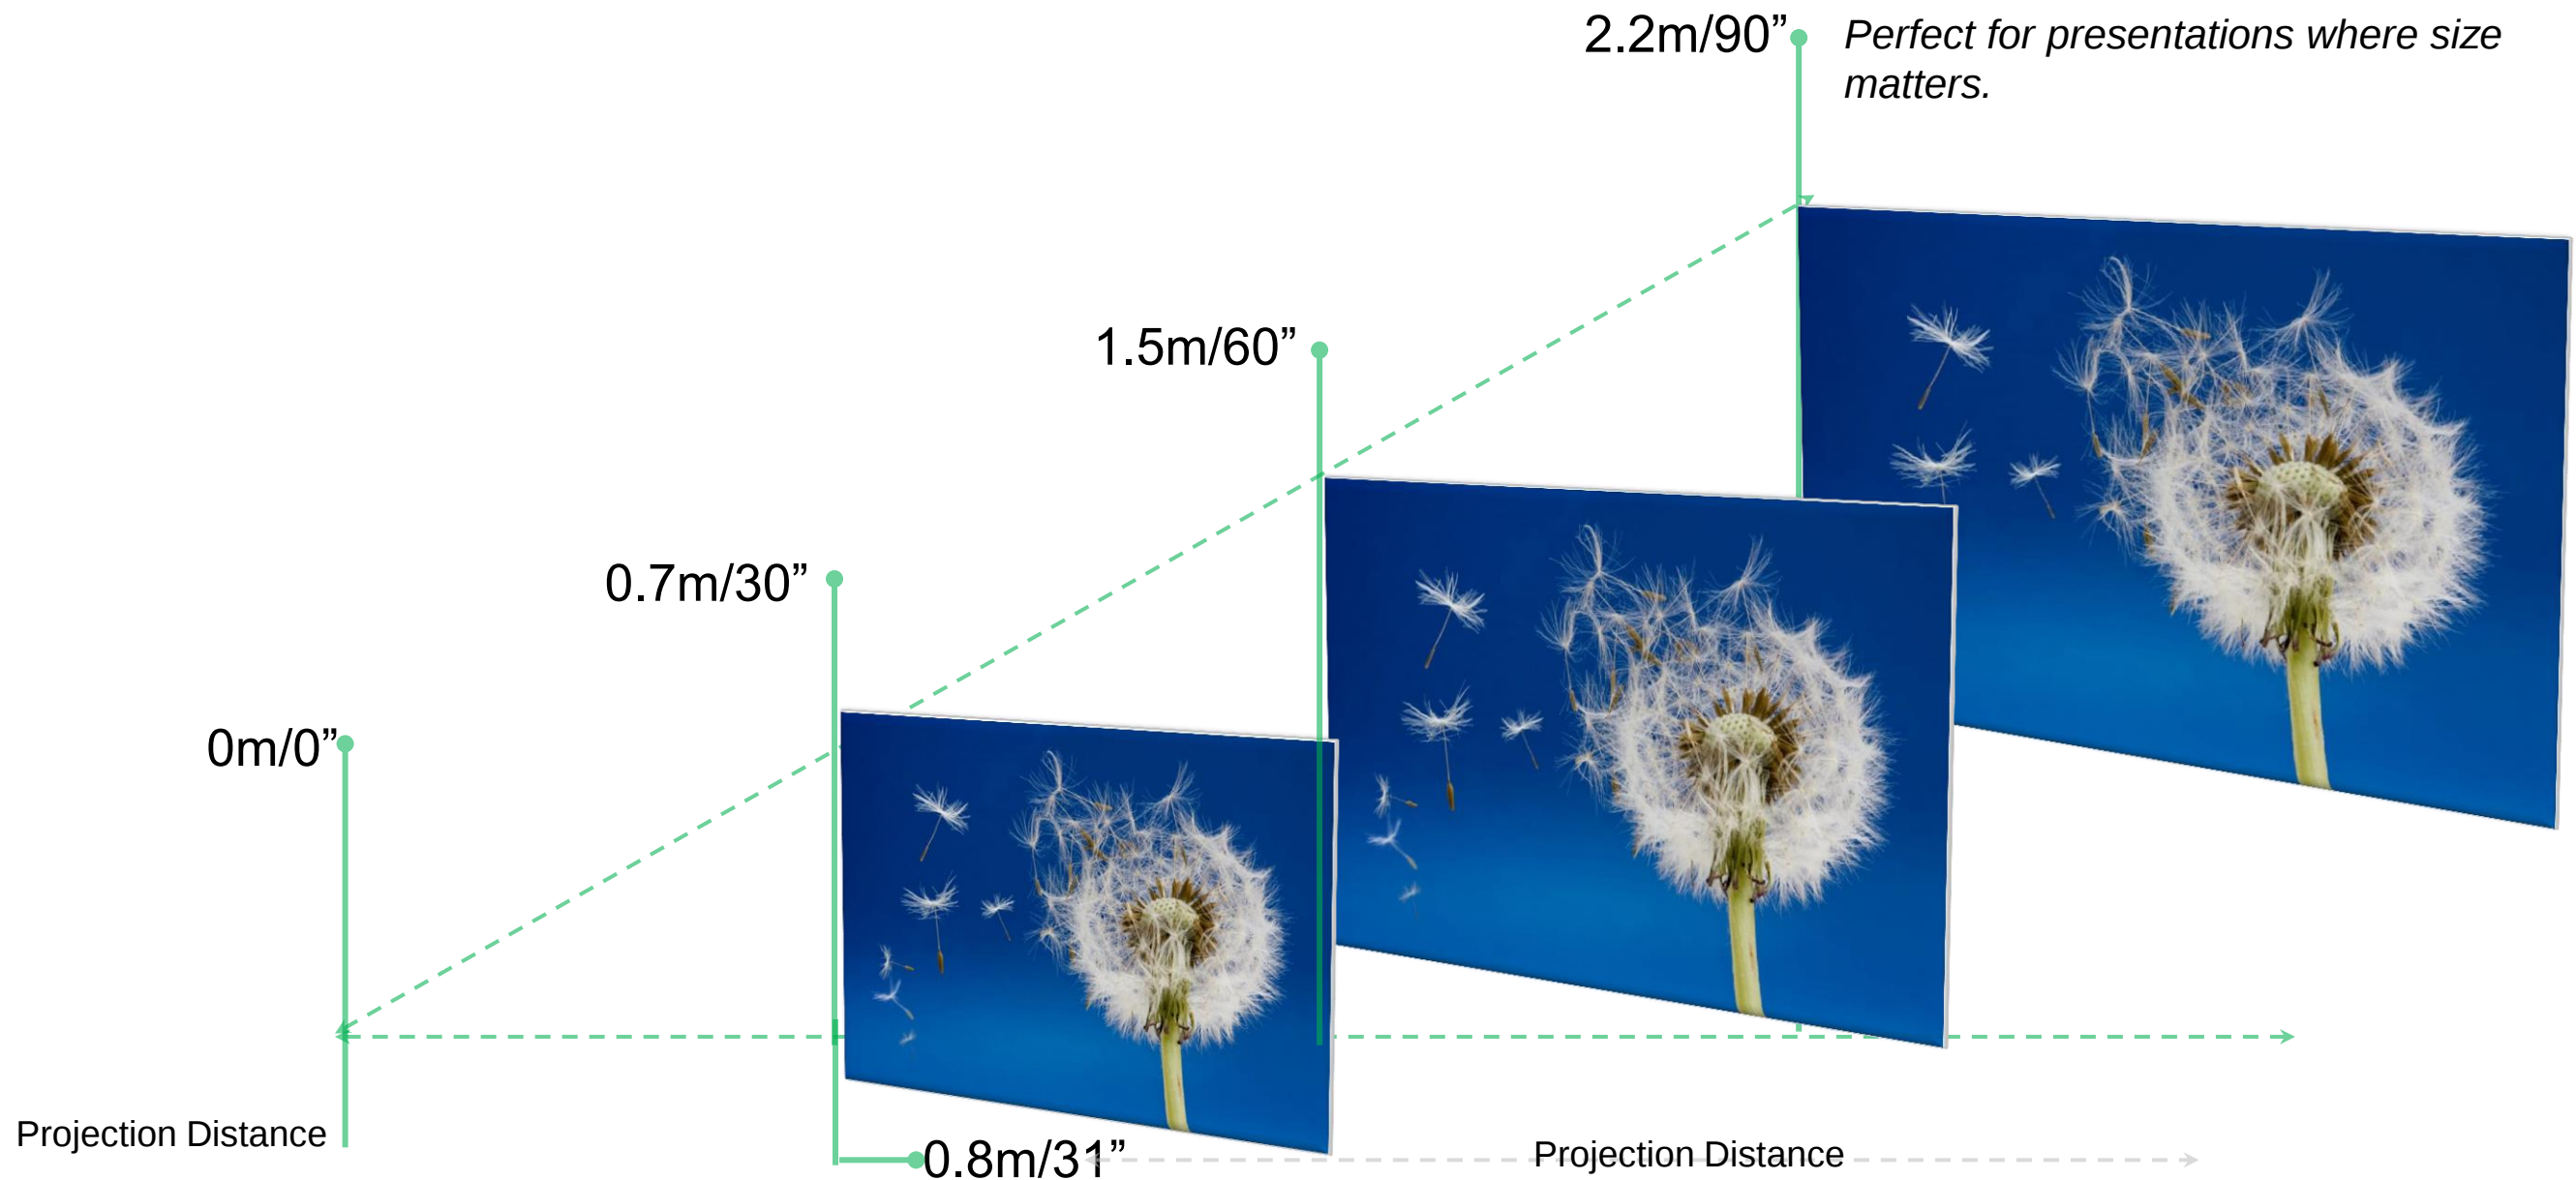

Standard image quality is dull and dark

Qumi's high definition 720P image quality is sharp and crisp

vivitek® Large Widescreen Projection

- ❑ Qumi Q4 can project a widescreen image up to a whopping 2.2m/90" in size. Perfect for presentations where size matters.

vivitek® Compact Design for Easy Portability

- ❑ Qumi is smaller than a paperback, light enough to carry anywhere, and easily fits in a purse, briefcase or backpack

Super light at only 460grams

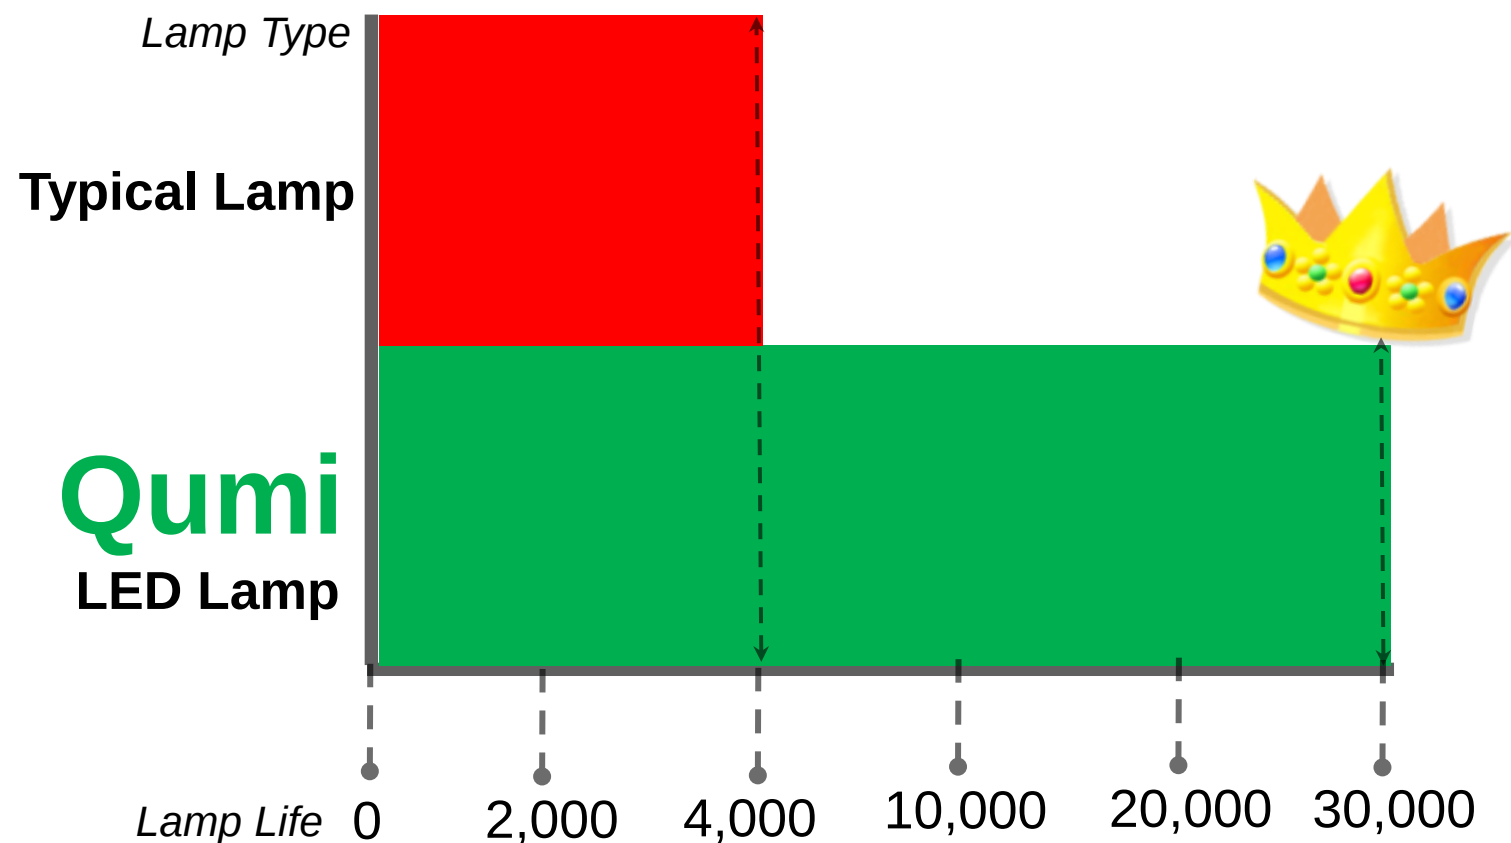

Ultra-slim at only 32.3mm at its thickest point

Extreme Long Life LED Light Source

- ❑ With up to 30,000 hours of lamp life, the Q4 integrates an environmental friendly LED light source that last an extremely long time yet saves time, money and maintenance on the projector. Additionally, the LED light source is mercury-free.

With 30,000 hours of lamp life, there is no need to replace the lamp over the life of the projector

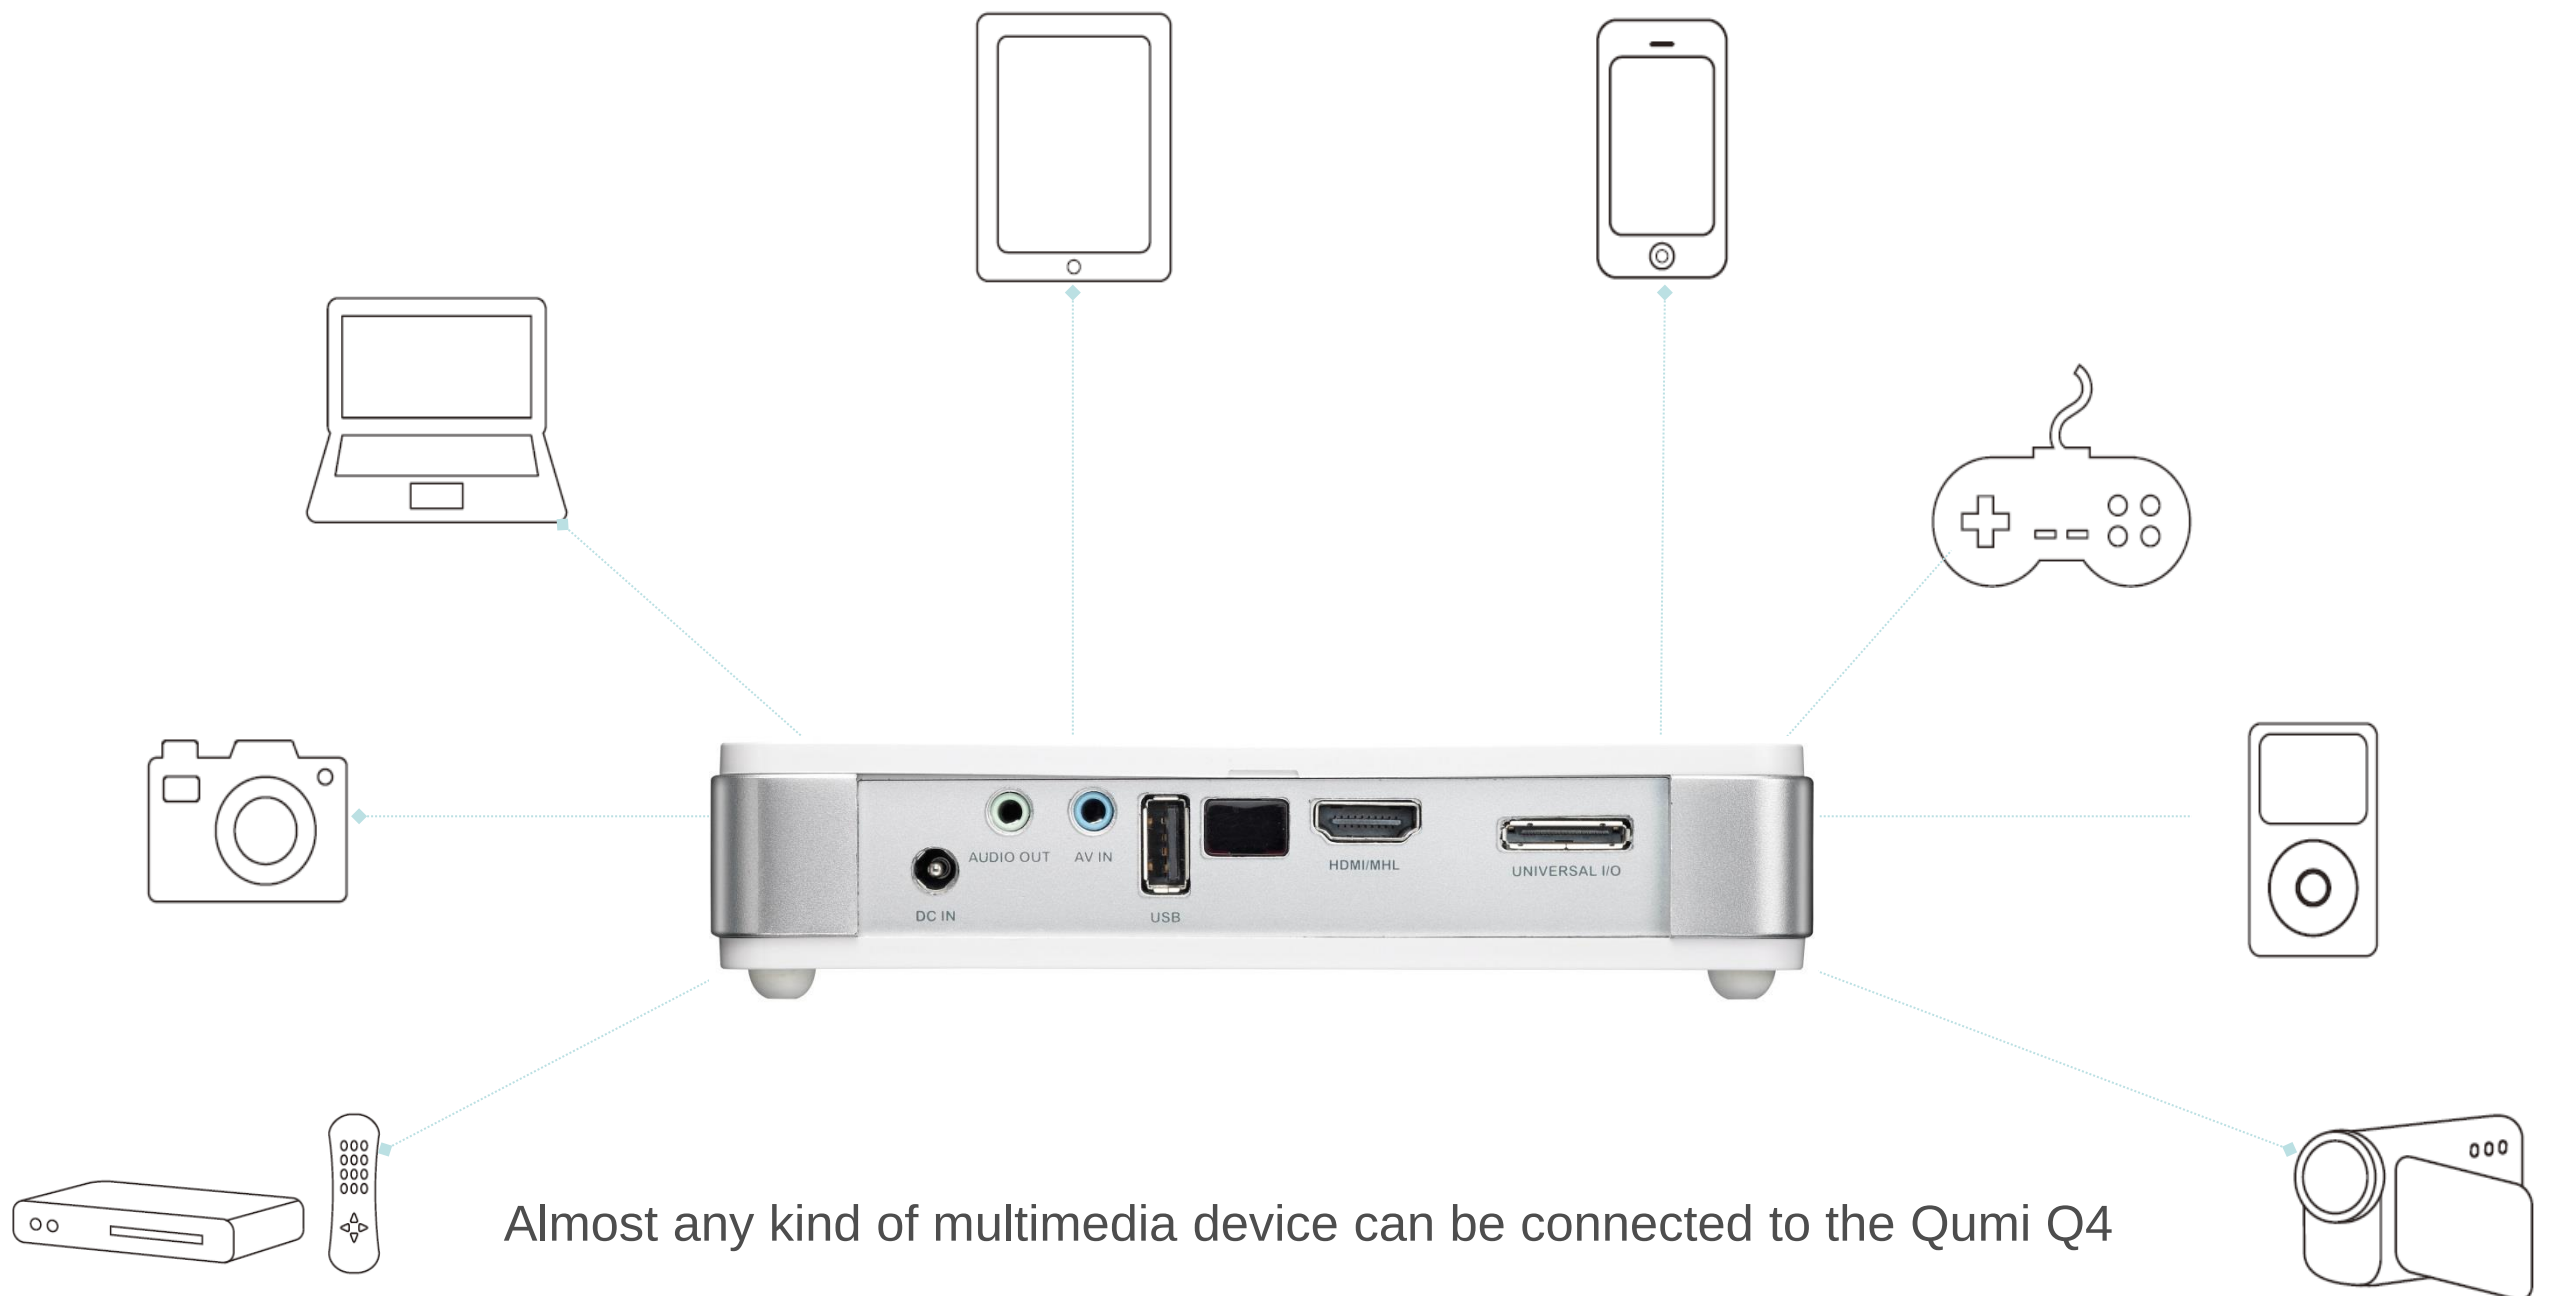

Mercury-Free

The Q4's LED light source is mercury-free

vivitek® Rich and Easy Connectivity

- ❑ An assortment of multimedia devices can easily be connected to the Qumi Q4 projector. This includes notebooks, smartphones, tablets, camera, game consoles and more.

vivitek® Go Big With an MHL Attached Device

- ❑ The Q4 is the perfect companion for MHL compatible smartphones and tablets. Simply attach the device to the Q4 to watch movies, play games, surf the internet, present a presentation, all on a large 90" screen. At the same time, attached device will also be re-charged.

From a smartphone or tablet...

- Watch movies or TV
- Play games
- Surf the internet
- Check emails
- Read a book or magazine
- Make a video call
- IM anyone
- Present a presentation
- Have a meeting

...All on the **BIG** screen

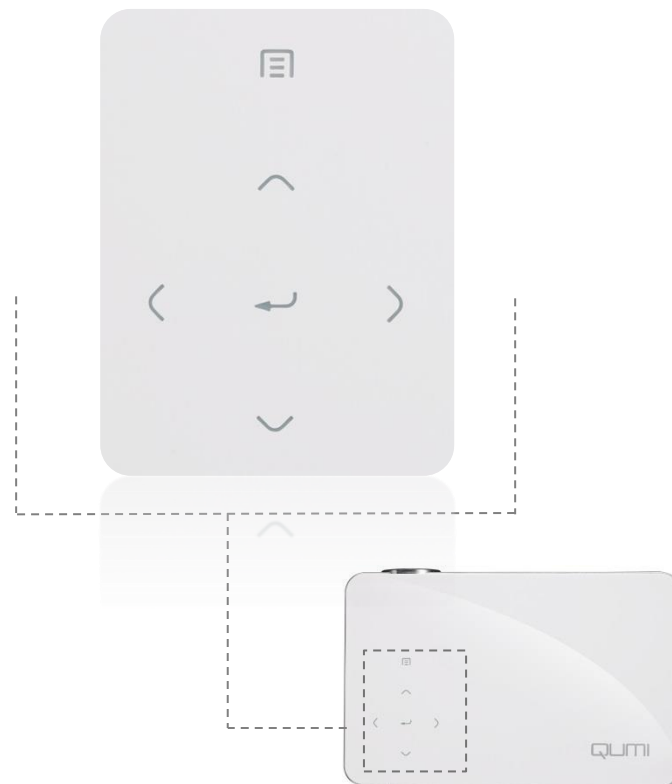

Note: Not all smartphones and tablets, with a microUSB port, are MHL enabled devices.

Simply attach an MHL enabled smartphone or tablet, then everything will be mirrored and displayed into a large 90" screen.

vivitek® Intuitive Control

- ❑ Touch-sensitive button controls, easy-to-use remote and a user-friendly display interface make projector adjustments a snap.

On-Screen Display

Over 20 languages available for the OSD

vivitek® Instant On and Off

- ❑ Conventional projectors require waiting around to power up and power down, but the Qumi Q4 is designed for quick start-up and shut down times. At the touch of a button, Qumi is instantly powered on or off within seconds.

Instant power on/off at the press of a button.

3 Seconds

The user can immediately shut down the Q4 when done and immediately pack it up and go.

vivitek® Closed Caption Decoding (CCD)

- ❑ With CCD functionality, Qumi reprocesses the video or television signal's audio portion and displays it as subtitles on the projected screen for easy viewing.

Perfect for educational settings, deaf or individuals hard of hearing. No external closed captioning box is required.

vivitek® Convenient Setup

- ❑ Qumi is so versatile that it can be setup in just about any location.

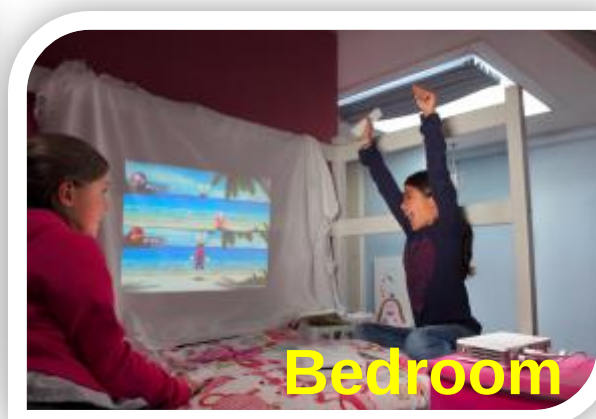

Place Qumi on a desk, table and more.
