

Vivitek Qumi Q4

VIVITEK QUMI Q4

Brief Introduction

Beta 2.5

With the Qumi Q4, manufacturer Vivitek offers a micro-portable DLP LED projector with WXGA 1280 x 800 resolution and a contrast of 2500:1. Due to the LEDs, the projector is specified with 30000 hours of light life, which is over 20.5 years with a daily viewing time of 4 hours. The integrated media player can play files directly. An image width of up to 227 cm is possible as the projector has 500 Ansi lumens. However, if there is room light, the image should be a maximum of 151 cm wide. The HDMI MHL (Mobile High-Definition Link) port enables 1080p / 60 Hz image mirroring (screen mirroring) to be transmitted from a smartphone while it is being charged at the same time via the connection. The projector can also play 1080P without any problems. The projector was launched in 2014 and is no longer sold by the manufacturer, but is still very popular in our projector database.
