The Go Laser DLP has 300 Ansi lumens, a contrast of 500:1 and an HDTV 1920 x 1080 resolution. The manufacturer specifies a laser service life of 25,000 hours, which converts to over 17.1 years at 4 hours per day. Due to the brightness of 300 Ansi lumens, a picture width of 176 cm is possible. In room light, the picture should be max. 117 cm wide. As the projector recognizes screen mirroring signals, it is possible to play videos with a high resolution and surround sound directly from a smartphone, tablet, PC (Android, Windows and iOS) via WLAN. The model is also Full HD 1080P compatible.
