

Wepvo YG300

W E P V O Y G 3 0 0

Brief Introduction

Beta 2.5

A brief introduction to the Wepvo YG300. The LCD projector has a WVGA 800 x 480 resolution and a contrast of 1000:1. The projector also offers an integrated media player with which files can be played directly. As Wepvo specifies the brightness of the projector in lumens, we have calculated an approximate Ansi lumen value in this case. An image width of up to 111 cm is possible. In room light, however, the image should be smaller. We recommend max. 74 cm. Furthermore, the projector can play 1080P without any problems.
