

Wielio Mini Beamer mit WiFi und Bluetooth

WIELIO MINI BEAMER MIT WIFI U

The micro-portable mini projector with WiFi and Bluetooth LED LCD has 720 Ansi lumens, a contrast of 10000:1 and an HDTV 1920 x 1080 resolution. The manufacturer specifies an LED service life of 50,000 hours, which equates to 34.2 years with a daily viewing time of 4 hours. Including an integrated media player with which files can be played directly. As the projector has horizontal and vertical keystone correction, the projector can be set up with plenty of free space in the room. As Wielio specifies the brightness of the projector in lumens, we have calculated an approximate Ansi lumen value in this case. The projector can illuminate a screen width of up to 273 cm well with its 720 Ansi lumens. In room lighting, however, the picture width should ideally be less than 182 cm. The projector has DLNA, Airplay and Miracast screen mirroring support, which enables direct playback of videos in high resolution and surround sound from smartphones, tablets and PCs with Android, Windows or iOS via Wi-Fi. Another extra is that the projector can be connected to external wireless speakers using the Bluetooth function. Video signals 1080P and 4K (compressed) are also no problem for the projector.
