

Wimius P63

WIMIUS P63

The standard portable Wimius P63 LED LCD projector has 750 Ansi lumens, a contrast of 22000:1 and an HDTV 1920 x 1080 resolution. The manufacturer specifies an LED service life of 30,000 hours, which would be over 20.5 years with a daily viewing time of 4 hours. As the projector has horizontal and vertical keystone correction, the projector can be set up with plenty of free space in the room. An image width of up to 278 cm is possible. However, the image should be smaller in room light. We recommend max. 185 cm. Thanks to the integrated Android TV software, it offers direct access to a variety of streaming services such as Netflix, Disney+, Amazon Prime Video and YouTube as well as games and other interactive content. The projector has Airplay, Miracast Screen Mirroring support, which enables direct playback of high-resolution videos and surround sound from smartphones, tablets and PCs with Android, Windows or iOS via Wi-Fi. In addition, the Bluetooth option is a useful addition to the projector, especially for wireless audio transmission. Playback of 1080P and 4K (compressed) is also no problem for the projector.
