

Wolf Cinema TXF-3800 MK II

WOLF CINEMA TXF-3800 MK II

A brief introduction to the Wolf Cinema TXF-3800 MK II. The stationary DLP laser projector has a UHD (4K2K) 3840 x 2160 resolution and 7800 Ansi lumens. The manufacturer Wolf Cinema specifies a service life of 30000 hours, which is over 20.5 years with a daily viewing time of 4 hours. The projector also offers a lens shift function for flexible projection adjustment without loss of quality. 7800 Ansi lumens ensure that an image width of 897 cm is also possible. The projector creates rooms with residual light with a smaller image width, we recommend a maximum of 598 cm. Furthermore, it is Full HD 1080P and 4K as well as 3D compatible, meaning that all currently available Blu-ray formats can be recognized by the projector. The model was built by Wolf Cinema in 2022 and is no longer current.
