

WUPRO Cinema G1 Galaxy One

WUPRO CINEMA G1 GALAXY ONE

The WUPRO Cinema Model G1 Galaxy One is an LCD LED projector with HDTV 1920 x 1080 resolution and a contrast ratio of 2000:1. The LEDs have a service life of 30,000 hours, which equates to over 20.5 years of enjoyment at four hours per day. A built-in horizontal and vertical keystone correction feature provides flexibility when setting up the projector. Since WUPRO Cinema specifies the brightness of the projector in lumens, we have calculated an approximate ANSI lumen value in this case. The projector will be able to illuminate a 203 cm image width well. However, if there is ambient light in the room, the image width should not exceed 135 cm. Google TV turns the projector into a smart entertainment center with countless functions. The model recognizes Airplay and Miracast screen mirroring signals, making it possible to play high-resolution videos with surround sound directly via Wi-Fi from a smartphone, tablet, or PC (Android, Windows, and iOS). Another extra feature worth mentioning is that the projector can be connected to external wireless speakers via Bluetooth. It is also compatible with Full HD 1080P and 4K (compressed).

Brief Introduction Beta 2.5

Display Type

1 x LCD TFT Panel
HDTV 16/9 Liquid Crystal Display

Ansi-Lumen

400 / 320 Iso Lumen

178 Lux (200 cm Screen width)
