

XBJ D1

XBJ D1

Brief Introduction

Beta 2.5

The XBJ D1 LED LCD projector has 1,200 ANSI lumens and an HDTV resolution of 1,920 x 1,080. Thanks to its LEDs, the projector has a rated lamp life of 30,000 hours, which would equate to over 20.5 years based on 4 hours of daily use. Since the projector features horizontal and vertical keystone correction, it can be set up with plenty of space around it in the room. The 1,200 ANSI lumens ensure that an image width of up to 352 cm is possible. However, if there is ambient light in the room, the image should be no wider than 235 cm. Google TV transforms the projector into a versatile media hub that can be seamlessly integrated into a smart home. The projector supports AirPlay, Miracast screen mirroring support, which allows for the direct playback of high-resolution videos and surround sound via Wi-Fi from smartphones, tablets, and PCs running Android, Windows, or iOS. Another notable feature is that the projector's Bluetooth functionality enables it to connect to external wireless speakers. Furthermore, it is compatible with Full HD 1080p and 4K (compressed) resolution.
