

XENPONAD Movie Projector

A brief introduction to the movie projector: The XENPONAD Game Portable LED LCD Projector offers 260 ANSI lumens, a contrast ratio of 10000:1, and HDTV 1920 x 1080 resolution. Thanks to its LEDs, the projector has a specified light life of 30,000 hours, which equates to over 20.5 years at 4 hours per day. It includes an integrated media player that allows files to be played directly. A built-in horizontal and vertical keystone correction gives you freedom when setting up the projector. The projector can illuminate an image width of up to 164 cm thanks to its 260 ANSI lumens. However, in room lighting, the image width should ideally be less than 109 cm. Since the projector recognizes Chromecast, Airplay, and Miracast screen mirroring signals, it is possible to play videos with high resolution and surround sound directly from a smartphone, tablet, or PC (Android, Windows, and iOS) via Wi-Fi. In addition, the Bluetooth capability is a useful addition to the projector, especially for wireless audio transmission. Playing 1080P is also no problem for the projector. Compared to others, the projector is very quiet with an operating noise of 25 decibels.

Brief Introduction Beta 2.5

Display Type	1 x LCD TFT Panel HDTV 16/9 Liquid Crystal Display
Ansi-Lumen	260
Contrast	10000:1
Black Level Offset	0,0260 min. Lumen
Resolution	HDTV 1920 x 1080 2.073.600 Pixel
Video Modes	Pal, SECAM, NTSC, HDTV 720p, 1080i, 1080p, EDTV 480p, 576p Media player formats: Mediaplayer
Application	Game-Portabel Very portable, small-screen projections. Very narrow picture width and rooms with very little light.
Light Source	LED
Light Life	30000 h.
Operating Costs	0,00 € LED
