

XGIMI Halo+

XGIMI HALO+

The XGIMI Halo+ 3D LED DLP projector has 900 Ansi lumens and an HDTV 1920 x 1080 resolution. Due to the LEDs, the projector is specified with 30000 hours of light life, which converts to over 20.5 years at 4 hours per day. Horizontal and vertical keystone correction makes setting up the picture childs play. Thanks to the brightness of 900 Ansi lumens, a picture width of 305 cm is possible. In room light, the picture should be max. 203 cm wide. Thanks to the built-in rechargeable battery, the projector does not require a power supply for 2 hours, so it can be set up spontaneously and easily anywhere. The projector has Chromecast, Screen Mirroring support, which enables direct playback of videos in high resolution and surround sound from smartphones, tablets and PCs with Android, Windows or iOS via Wi-Fi. Thanks to the Bluetooth function, the projector can also be flexibly paired with other speakers. Furthermore, it is Full HD 1080P and 4K (compressed) as well as 3D compatible, meaning that all currently available Blu-ray formats can be recognized by the projector. The operating noise of just 30 decibels makes the projection quiet.
