

XGODY X3

XGODY X3

A brief introduction to the XGODY X3. The micro-portable LCD LED projector has an HDTV 1920 x 1080 resolution and 250 Ansi lumens. Thanks to the LEDs, the projector has a light life of up to 30,000 hours, which is over 20.5 years if enjoyed for four hours a day. The projector is equipped with an integrated media player, so direct playback of files will not be a problem. The projector will be able to illuminate the 161 cm picture width well. However, if room light is available, the picture width should ideally not exceed 107 cm. The model recognizes Airplay, Miracast Screen Mirroring signals, so it is possible to play videos with high resolution and surround sound directly via WLAN from a smartphone, tablet or PC (Android, Windows and iOS). Thanks to the Bluetooth function, the projector can also be flexibly paired with other speakers. The model is also Full HD 1080P compatible.
