

XNANO X3

XNANO X3

The standard portable XNANO X3 LED LCD projector has 300 ANSI lumens and an HDTV 1920 x 1080 resolution. The manufacturer specifies an LED lifespan of 30,000 hours, which would be the equivalent of 20.5 years at 4 hours per day. The projector can illuminate a screen width of up to 176 cm well thanks to the 300 ANSI lumens. However, the screen width should ideally be less than 117 cm in room light. Since the projector recognises Airplay, Miracast Screen Mirroring signals, it is possible to play videos with high resolution and surround sound directly from a smartphone, tablet, PC (Android, Windows and iOS) via WLAN. In addition, the Bluetooth option is a useful addition for the projector, especially for wireless audio transmission. Furthermore, it is Full HD 1080P and 4K (compressed) compatible.
