

XNANO X5

XNANO X5

The X5 at a glance: The XNANO Standard Portable LED LCD Projector offers 400 ANSI lumens, a contrast ratio of 1000:1, and HDTV 1920 x 1080 resolution. It is an LED projector with a light life of 30,000 hours, which is equivalent to over 20.5 years at 4 hours per day. The projector can illuminate a screen width of 203 cm. However, if there is ambient light in the room, the image width should not exceed 135 cm. Since the projector recognizes Airplay and Miracast screen mirroring signals, it is possible to play videos with high resolution and surround sound directly from a smartphone, tablet, or PC (Android, Windows, and iOS) via Wi-Fi. In addition, thanks to the Bluetooth function, the projector can be flexibly paired with other speakers. The projector can also play 1080P and 4K (compressed) without any problems.
