

# ZDK 20000 Lumen Beamer

ZDK 20000 LUMEN BEAMER

## Brief Introduction

Beta 2.5

The 20000 lumen LED LCD projector has 1200 Ansi lumens, a contrast of 20000:1 and an HDTV 1920 x 1080 resolution. Thanks to the LEDs, the projector has a light life of up to 30,000 hours, which is over 20.5 years if enjoyed for four hours a day. As ZDK specifies the brightness of the projector in lumens, we have calculated an approximate ansi-lumen value in this case. An image width of up to 352 cm is possible, as the projector has 1200 Ansi lumens. However, if room light is available, the picture should be max. 235 cm wide. The projector has Airplay, Miracast Screen Mirroring support, which enables direct playback of videos in high resolution and surround sound from smartphones, tablets and PCs with Android, Windows or iOS via WLAN. Thanks to the Bluetooth function, the projector can also be flexibly paired with other speakers. Furthermore, the projector can play 1080P without any problems.
